## What's New for FY 2011?

The FY 2011 formula grant awards will be disbursed through the Automated Standard Application for Payment System (ASAP) operated by the Department of Treasury's Financial Management Service. Applicants must ensure ASAP recipient ID information provided on the SF 424 R&R (Research and Related) is correct as NIFA will use this information to certify funds in ASAP. NIFA will no longer move ASAP funds between institutional accounts. All FY 2009 and prior formula grant awards will continue to be disbursed via the Payment Management System (PMS) operated by the Department of Health and Human Services (DHHS). Applicants can receive instructions on how to access ASAP and how to inform NIFA, Financial Operations Division (FOD) of their account number to use to make disbursement, by emailing the ASAP Customer Service email box at [ASAPCustomerService@nifa.usda.gov](mailto:ASAPCustomerService@nifa.usda.gov).

- There will be two submissions in FY 2011:
  - Initial – For an estimated amount based on the FY 2010 allocation amounts.
  - Final – Based on the actual appropriated amount (see Appendix A) for FY 2011 and actual formula distribution for FY 2011.
- The Application Package for the final submissions will include:
  - Application for Federal Assistance, Standard Form (SF) 424 R&R (Research and Related (Required)
  - NIFA Supplemental Information Form (Required)  
NIFA will use the Supplemental Information Form to capture all necessary attachments for this final submission of the SF 424 R&R application (i.e., matching waiver requests (via pdf attachment).
  - NIFA will be capturing the information for three key contacts, and each organization will determine who those individuals are.
    - Block 5 should reflect the person responsible for fiscal/financial issues.
    - The Authorized Representative (AR)<sup>1</sup> must have the authority to represent and bind the organization for any agreement.
    - The name of the Project Director (PD) will be reflected on the NIFA-2009, "Agreements Face Sheet", and it is suggested that the 1890 Extension Administrator would be an appropriate person.
- NIFA plans to issue all FY 2011 Formula Grants on the NIFA-2009 form. This form is also used to issue non-formula grants.
- For formula grants issued in FY 2011, the grantee is required to submit an **annual** SF-425, Federal Financial Report (this form consolidates and replaces four financial reporting forms; the SF-269, SF-269A, SF-272, and SF-272A). The grantee is NOT required to submit a **quarterly** SF-425 (the **quarterly** submission requirement, however, exists for previously issued grants with DHHS as the designated payment system).

---

<sup>1</sup> Authorized Representative (AR) – the individual who is authorized to commit the awardee's time and other resources to the project, to commit the awardee to comply with the terms and conditions of the award instrument including those set out herein, and to otherwise act for or on behalf of the awardee institution or organization.

## **PART I—FUNDING OPPORTUNITY DESCRIPTION**

### **A. Legislative Authority and Background**

Section 1444 of the National Agricultural Research, Extension, and Teaching Policy Act Of 1977 (NARETPA), enacted as Title XIV of Public Law 95–113 (The Food and Agriculture Act of 1977) on Sept. 29, 1977, is also known as the Section 1444 Program. This law provides the basis for Federal funding for agricultural extension activities at 1890 Land-Grant Institutions, including Tuskegee University and West Virginia State University.

The 1890 Land-Grant Institutions, including Tuskegee University and West Virginia State University, are eligible for funds appropriated under this Act according to the following formula: Any funds annually appropriated under NARETPA section 1444 up to the amount appropriated for the fiscal year ending September 30, 1978, pursuant to section 3(d) of the Act of May 8, 1914, as amended, for eligible institutions, will be allocated among the eligible institutions in the same proportion as funds appropriated under section 3(d) of the Act of May 8, 1914, as amended, for the fiscal year ending September 30, 1978, are allocated among the eligible institutions. Of the funds in excess of that amount, 20 per cent will be allotted among the eligible institutions in equal proportions; 40 per cent will be allotted among the eligible institutions in the proportion that the rural population of the State in which each eligible institution is located bears to the total rural population of all the States in which eligible institutions are located, as determined by the last preceding decennial census current at the time each such additional sum is first appropriated; and the balance will be allotted amount the eligible institutions in the proportion that the farm population of the State in which each eligible institution is located bears to the total farm population of all the States in which the eligible institutions are located, as determined by the last preceding decennial census current at the time each such additional sum is first appropriated. For purposes of computing the distribution, the allotments to Tuskegee University and Alabama A&M University will be determined as if each institution were in a separate State.

In FY 2007, the former Cooperative State Research, Education, and Extension Service (CSREES)<sup>2</sup> conducted a Grants.gov pilot for the solicitation of one of the Formula Programs, the McIntire-Stennis Cooperative Forestry Program. Under this pilot the institutions were required to submit a SF-424M Application (Cover Page Form), CSREES Supplemental Form, and Key Contacts Form through Grants.gov. Please note that this application package replaced the forms/information solicited previously by the CSREES Office of Extramural Programs and did not duplicate the information being collected under the Current Research Information System (CRIS). CSREES implemented this process for all CSREES Formula Programs in FY 2008. This process is necessary due to the mandated reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA). Under this law, the U.S. Office of Management and Budget (OMB) is required to develop and maintain a public searchable data base for all Federal financial assistance awards, and Federal agencies are required to report specific data elements which will be collected via these applications (e.g., Dun and Bradstreet data Universal

---

<sup>2</sup> On October 1, 2009, all authorities of the Cooperative State Research, Education, and Extension Service (CSREES) were transferred to the National Institute of Food and Agriculture per section 7511 of the Food, Conservation, and Energy Act of 2008 (Pub. L. 110-246).

Numbering (DUNS) numbers, legal name of institution, legal address, and congressional district). OMB makes this information available at <http://www.usaspending.gov>.

In FY 2011, NIFA will be requiring both an initial submission (estimated amounts based on the 2010 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act) and final submission (based on the actual appropriated amount for FY 2011 and the actual formula distribution for FY 2011).

Please note that the submission of this application package does not change the following:

- Delegated authorities of the 1890 Extension Administrator
- How funds are managed at your institution
- Indirect costs and tuition remission are unallowable costs; and
- Matching waiver authority of NIFA for NARETPA section 1444 and 1445 funds

Guidelines for the administration of this program are published as Chapter III, Financial Operations, of the Administrative Handbook for Cooperative Extension Work, which may be accessed at <http://www.nifa.usda.gov/business/awards/formula/manuals/coopextension.pdf>. Please note that any instructions in this FGO supersede policies and procedures identified in this manual. NIFA intends to revise the manual in FY 2011 and then promulgate administrative provisions for this program through rulemaking which includes a public comment period.

## **B. Purpose and Priorities**

The purpose of this funding is to support agricultural and forestry extension activities at 1890 Land-Grant Institutions, including Tuskegee University and West Virginia State University.

## **PART II—AWARD INFORMATION**

### **A. Available Funding**

The Department of Defense and Full-Year Continuing Appropriations Act, 2011 (Public Law 112-10) provides \$40,887,980 in FY 2011 for this program.

Funds will continue to be distributed to the institutions on a quarterly basis. See Appendix A for the specific allocations.

Section 1444 Program funds are expected to be fully expended in the fiscal year of appropriation; however, no more than 20 per cent of the funds received by an institution in any fiscal year may be carried forward to the succeeding fiscal year. No prior approval from NIFA is required. Since these limitations are legislatively mandated, NIFA is not authorized to approve any carryover requests beyond the 20 percent and one-year limitations.

## **B. Types of Submission**

In FY 2011, application for awards must be submitted to the Section 1444 Program as a “new” application on the [www.grants.gov](http://www.grants.gov) website. As noted previously, these application packages complement, rather than duplicate, the information collected via the Plan of Work (POW) system, and together satisfy all legislative and regulatory pre-award requirements.

Section 225 of the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) amended NARETPA to require an approved Plan of Work for agricultural extension and research activities at 1890 Land-Grant Institutions in order to receive Federal funding. Therefore, each 1890 land-grant institution, including Tuskegee University and West Virginia State University, must submit both a 5-Year Plan of Work Update for FY 2011-2015 and an Annual Report of Accomplishments and Results. Both reports were due April 15, 2011.

## **C. Project Types**

Applicants should request funding for the amounts listed in Appendix A to this announcement. NIFA will fund the Section 1444 Program in FY 2011 for agricultural extension activities identified in the approved 5-Year Plan of Work.

## **PART III—ELIGIBILITY INFORMATION**

### **A. Eligible Applicants**

Applications may be submitted by 1890 Land-Grant Universities, including Tuskegee University and West Virginia State University, that conduct agricultural extension activities in accordance with NARETPA section 1444(a)(1): Alabama A&M University; Tuskegee University; University of Arkansas - Pine Bluff; Delaware State University; Florida A&M University; Fort Valley State University; Kentucky State University; Southern University; University of Maryland – Eastern Shore; Alcorn State University; Lincoln University; North Carolina A & T State University; Langston University; South Carolina State University; Tennessee State University; Prairie View A&M University; Virginia State University; and West Virginia State University.

Institutions may subcontract to organizations not eligible to apply for funding provided that such arrangements are necessary to complete the project or activity.

### **B. Cost Sharing or Matching**

NARETPA section 1449 (7 U.S.C. 3222d) states that “the State shall provide matching funds from non-Federal sources. Such matching funds shall be for an amount equal to not less than ... 100 percent of the formula [grant] funds to be distributed to the eligible institution for fiscal year 2007 and each fiscal year thereafter. ... Notwithstanding [redistributing the funds], the Secretary may waive the matching funds requirement ... above the 50 percent level for any fiscal year for an eligible institution of a State if the Secretary determines that the State will be unlikely to satisfy the matching requirement.”

7 CFR 3419.1 defines “matching funds” as “funds from non-Federal sources made available by the State to the eligible institutions ... [for] programs or activities that fall within the purposes of agricultural research and cooperative extension under sections 1444 and 1445 of NARETPA ... or [for] qualifying educational activities. Matching funds means cash contributions and excludes in-kind matching contributions.” It defines “non-Federal sources” as “funds made available by the State to the eligible institution either through direct appropriation or under any authority (other than authority to charge tuition and fees paid by students) provided by a State to an eligible institution to raise revenue, such as gift acceptance authority or user fees.” Finally, it defines “qualifying educational activities” as “programs that address food and agricultural sciences components of an eligible institution.”

7 CFR 3419.6 states that “The required matching funds for the formula programs shall be used by an eligible institution for agricultural research and extension activities that have been approved in the plan of work required under sections 1444(d) and 1445(c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977... or for .. qualifying education activities.”

## **PART IV—SUBMISSION INFORMATION**

### **A. Electronic Formula Grants Opportunity Package**

Only electronic applications may be submitted to NIFA via Grants.gov in response to this FGO.

Prior to preparing an application, it is suggested that the 1890 Extension Administrator, or his or her designee, first contact an AR to determine if the organization is prepared to submit electronic applications through Grants.gov. If the organization is not prepared, the AR should see [http://www.grants.gov/applicants/get\\_registered.jsp](http://www.grants.gov/applicants/get_registered.jsp) for steps for preparing to submit applications through Grants.gov.

The 1890 Extension Administrator, or his or her designee, also must contact the institution’s AR in order to be granted permission for the submission of applications through Grants.gov. Once that permission is granted in the Grants.gov system, the 1890 Extension Administrator, or his or her designee, can obtain a login and password necessary for submission of applications.

The steps to access application materials are as follows:

1. In order to access, complete and submit applications, applicants must download and install a version of Adobe Reader compatible with Grants.gov. This software is essential to apply for NIFA Federal assistance awards. For basic system requirements and download instructions, please see [http://www.grants.gov/help/download\\_software.jsp](http://www.grants.gov/help/download_software.jsp). To verify that you have a compatible version of Adobe Reader, Grants.gov established a test package that will assist you in making that determination. Grants.gov Adobe Versioning Test Package: <http://www.grants.gov/applicants/AdobeVersioningTestOnly.jsp>.
2. The application package must be obtained via Grants.gov, go to <http://www.grants.gov>, click on “Apply for Grants” in the left-hand column, click on

“Step 1: Download a Grant Application Package and Instructions,” enter the funding opportunity number “USDA-NIFA-LG1444-003455” in the appropriate box and click “Download Package.” From the search results, click “Download” to access the application package.

**If assistance is needed to access the application page** (e.g., downloading or navigating PDF forms, using Adobe with a Macintosh computer), refer to the resources available on the Grants.gov Web site first (<http://grants.gov>). Grants.gov assistance is also available as follows:

#### **E. Funding Restrictions**

##### **(1) Approved NIFA Section 1444 Projects**

Section 1444 Program funding may only be used to support agricultural extension activities identified in the approved 5-Year Plan of Work.

##### **(2) Matching**

NARETPA section 1449 (7 U.S.C. 3222d) states that “the State shall provide matching funds from non-Federal sources. Such matching funds shall be for an amount equal to not less than ... 100 percent of the formula [grant] funds to be distributed to the eligible institution for fiscal year 2007 and each fiscal year thereafter. ... Notwithstanding [redistributing the funds], the Secretary may waive the matching funds requirement ... above the 50 percent level for any fiscal year for an eligible institution of a State if the Secretary determines that the State will be unlikely to satisfy the matching requirement.”

7 CFR 3419.1 defines “matching funds” as “funds from non-Federal sources made available by the State to the eligible institutions ... [for] programs or activities that fall within the purposes of agricultural research and cooperative extension under sections 1444 and 1445 of NARETPA ... or [for] qualifying educational activities. Matching funds means cash contributions and excludes in-kind matching contributions.” It defines “non-Federal sources” as “funds made available by the State to the eligible institution either through direct appropriation or under any authority (other than authority to charge tuition and fees paid by students) provided by a State to an eligible institution to raise revenue, such as gift acceptance authority or user fees.” Finally, it defines “qualifying educational activities” as “programs that address food and agricultural sciences components of an eligible institution.”

7 CFR 3419.6 states that “The required matching funds for the formula programs shall be used by an eligible institution for agricultural research and extension activities that have been approved in the plan of work required under sections 1444(d) and 1445(c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977... or for ... qualifying education activities.”

Please note that while Federal funds may only be expended on agricultural extension, the matching funds may be used for agricultural research, agricultural extension, or qualifying educational activities. NIFA may consider and approve matching waivers above the 50 percent level. See Part IV.B.3. for additional information.
